

Green Climber

Stumpgrinder

Green Climber is an innovative machine for the maintenance and cleaning of roadsides and uneven / steep terrain. It is equipped with expandable undercarriage tracks and long range remote control. The tracks can be extended a further 400 mm to gain overall width; this together with a low centre of gravity allows you to work along 60 deg slopes in total safety. These particular tracks allow good grip on any terrain. Green Climber is virtually unstoppable on any slope whether it's working uphill or downhill.

ADVANTAGES

- One operator working in safety replaces a road crew.
- 10 times faster than traditional means of clearing / maintaining
- Agile making it easy to avoid obstacles such as trees and road signs.
- Minimum operator requirements and infrastructure means less disruption to traffic.
- Designed for safety, the operator is remote and the deck prevents debris being thrown toward the operator.

GREEN CLIMBER

Height "h" (mm)	1050
Width "a" min (closed tracks) max (extended tracks) (mm)	1300 - 1700
Length "b" (mm)	1980
Net weight (kg)	1180
Max work gradient	60°
Track widening (mm)	400
Lifting height of accessory (mm)	415
Max Tilting	50°
Manual side shifting (mm)	400
Hydraulic side shifting (mm)	400
Speed (km/h)	9
Engine	Diesel
N° cylinders	3
Engine power (kW)	27 / 3000
Torque Nm / rpm	103 / 1800
Engine Cooling	liquid
Hydraulic oil capacity (lt)	40

The remote control mechanism can reach a distance of 300 meters and controls start / stop engine, acceleration, and all the movements of the accessories. Furthermore it has a self correcting steering system that in the case of a steep slope it corrects the normal inclination of the machine towards decent.

Main features:

- YANMAR Diesel engine
- Remote controlled tracks widening
- Remote controlled hydraulic side shifting
- front and rear lights
- Manual side-shifting
- capability to use other equipment
- roll bar
- high performance mower
- reversing fan on radiator
- battery charger on board
- towing hook
- Sequential speed
- proportional hydraulic distributors with 4 levers

Mower specs

Working width	Total width	weight	Oil flow	Rotating speed	Working pressure
[mm]	[mm]	[kg]	[l/1']	[giri/1']	[bar]
1300	1460	227	45	3300	220

Green Climber can also be equipped with the following accessories:

- Flail mower to cut along roadsides and grind shrubs up to 5cm diameter
- Forks to lift loads
- Sweeper to clean yards
- Stump Grinder
- Trencher
- Back fill blade
- Tiller and other tools for agriculture

The rapid attachment system has been designed to perform tilting, side-shifting and lifting movements of the attached accessory.

The expandable undercarriage together with the electronic direction correction system guarantee a good grip on highly rugged terrain.

Green Climber is equipped with an automatic cleaning system with a special fan that always keeps the radiator clean
